1	Preliminaries	5
2	Varieties and identities	6
2.1	Free algebras	7
2.2	Fully invariant congruences	10
2.3	Birkhoff's theorems for varieties	10
3	Graphical proofs	16
3.1	Tree identities	16
3.2	Tree identities in graphic	17
3.3	Birkhoff's derivation rules in graphic	23
4	Motivation for derived algebras	30
5	Extensions of varieties	31
6	A-identities	32
6.1	Normal and regular identities	33
6.2	Sheffer and Pierce algebras	34
7	Normal identities	35
8	The operator N	37
8.1	Properties of normal identities	38
8.2	Not-normal algebras	38
8.3	G. Birkhoff's theorems for normal shifts	41
8.4	The lattice of $L(\text{Mod}(N(V)))$	44
9	Plonka sums	44
9.1	Examples	47
10	Regular identities	52
10.1	Definitions and properties	52
10.2	Regular consequences and proofs	54
11	The operator R	59
11.1	Representation theorems for regular shifts	59

11.2	Regular subdirectly irreducible algebras	63
11.3	Jonsson's Lemma for regular shifts	64
11.4	Free algebras in $\text{Mod}(\mathbf{R}(\mathbf{V}))$	65
11.5	Regular congruences	68
11.6	Birkhoff's theorems for regular shifts	69
11.7	The lattice $L(\text{Mod}(\mathbf{R}(\mathbf{V})))$	70
11.8	EIS property, amalgamation in $\text{Mod}(\mathbf{R}(\mathbf{V}))$	72
11.9	Bases, finite bases, finite basis property	73
11.10	The word problems for shifts	75
11.11	$\mathbf{A}$ -shifts of varieties	75
12	Selfdual varieties	76
12.1	Selfdual algebras	77
12.2	Selfdual congruences	79
12.3	Birkhoff's theorems for selfdual varieties	80
13	M-hypervarieties	83
13.1	M-hypersubstitutions	85
13.2	Free M-solid algebras	86
13.3	M-totally invariant congruences	88
13.4	Birkhoff's theorems for M-hypervarieties	88
14	Pseudovarieties	93
14.1	Operators on pseudodovarieties	94
14.2	The lattice of subpseudovarieties	99
15	Regular pseudovarieties	100
15.1	Jonsson's Lemma for regular shifts of pseudovarieties	101
15.2	The lattice of subpseudovarieties of $\mathbf{R}(\mathbf{V})$	102
16	M-solid pseudovarieties	106
17	Generalizations	108
17.1	Graphs	108
17.2	Relational systems	108
17.3	Double systems of algebras	108
17.4	Solid pseudovarieties	109
