6-8. How general words are made	17

9. General natures are nothing but abstract ideas	18
10. Why the <i>genus</i> is ordinarily made use of in definitions	19
11. General and universal are creatures of the understanding	20
12. Abstract ideas are the essences of the <i>genera</i> and <i>species</i>	20
13. They are the workmanship of the understanding, but have their foundation in the similitude of things	21
14. Each distinct abstract idea is a distinct essence	22
15. Real and nominal essence	22
16. Constant connexion between the name and nominal essence	23

20. Recapitulation	25

CHAPTER IV

OF THE NAMES OF SIMPLE IDEAS

SECTION

1. Names of simple ideas, modes, and substances, have each something peculiar	26
2. First, Names of simple ideas and substances intimate real existence	26
3. Secondly, Names of simple ideas and modes signify always both real and nominal essence	26
4. Thirdly, Names of simple ideas undefinable	26

17. Sixthly, Names of simple ideas stand for ideas not at all arbitrary	33

CHAPTER V

OF THE NAMES OF MIXED MODES AND RELATIONS

SECTION

1.	They stand for abstract ideas, as other general names	33
2.	First, The ideas they stand for are made by the understanding	33
3.	Secondly, Made arbitrarily and without patterns ..	33
4.	How this is done	34
5.	Evidently arbitrary, in that the idea is often before the existence	34
6.	Instances: murder, incest, stabbing	35
7.	But still subservient to the end of language ..	36
8.	Whereof the intranslatable words of divers languages are a proof	37
9.	This shows species to be made for communication ..	38
10-11.	In mixed modes, it is the name that ties the combination together and makes it a species	38
12.	For the originals of mixed modes, we look no further than the mind, which also shows them to be the workmanship of the understanding	39
13.	Their being made by the understanding without patterns shows the reason why they are so compounded	40
14.	Names of mixed modes stand always for their real essences	40
15.	Why their names are usually got before their ideas ..	40
16.	Reason of my being so large on this subject ..	41

CHAPTER VI

OF THE NAMES OF SUBSTANCES

9.	Not the real essence which we know not	47
10.	Not substantial forms which we know less	48
11.	That the nominal essence is that whereby we distinguish species, further evident from spirits	48
12.	Whereof there are probably numberless species ..	49
13.	The nominal essence that of the species, proved from water and ice	50

14-17.	Difficulties against a certain number of real essences	51
18-20.	Our nominal essences of substances not perfect collections of properties	51
21.	But such a collection as our names stand for ..	52
22.	Our abstract ideas are to us the measures of species, instance in that of man	53
23.	Species not distinguished by generation	54
24.	Not by substantial forms	54
25.	The specific essences are made by the mind ..	55
26-27.	Therefore very various and uncertain	55
28.	But not so arbitrarily as mixed modes	57
29.	Though very imperfect	58
30.	Which yet serves for common converse	59
31.	Essences of species under the same name, very different	60
32.	The more general our ideas are, the more incomplete and partial they are	61
33.	This all accommodated to the end of speech ..	62
34.	Instance in cassowaries	62
35.	Men make the species, instance gold	63
36-37.	Though nature make the similitude	63

| 4. The imperfection of words is the doubtfulness of their signification | 77 |
| 5. Causes of their imperfection | 77 |
| 6. The names of mixed modes doubtful. First, Because the ideas they stand for are so complex | 78 |
| 7. Secondly, Because they have no standards | 78 |
| 8. Propriety not a sufficient remedy | 79 |
| 9. The way of learning these names contributes also to their doubtfulness | 80 |
| 10. Hence unavoidable obscurity in ancient authors .. | 81 |
| 11-12. Names of substances referred. First, to real essences that cannot be known | 81 |
| 13-14. Secondly, to co-existing qualities which are known but imperfectly | 82 |
| 15. With this imperfection they may serve for civil, but not well for philosophical use | 83 |
| 16. Instance liquor of nerves | 84 |
| 17. Instance gold | 85 |
| 18. The names of simple ideas, the least doubtful .. | 86 |
| 19. And next to them simple modes | 87 |
| 20. The most doubtful are the names of very compounded mixed modes and substances | 87 |
| 21. Why this imperfection charged upon words .. | 87 |
| 22-23. This should teach us moderation, in imposing our own sense of old authors | 88 |

	18.	V.g. putting them for the real essences of substances	..			98
	19.	Hence we think every change of our idea in substances not to change the species	99
	20.	The cause of this abuse, a supposition of nature's working always regularly	99
	21.	This abuse contains two false suppositions		100
	22.	<i>Sixthly</i> , A supposition that words have a certain and evident signification	101
