

CONTENTS

Witold Marciszewski	
<i>Leibniz's mathematical and philosophical approaches to actual infinity. A case of cultural resistance</i>	7
Jan Woleński	
<i>Logical consequence and the limits of first-order logic</i>	21
Roman Murawski	
<i>On proofs of the consistency of arithmetic</i>	41
Grzegorz Malinowski	
<i>Lattice properties of a protologic inference</i>	51
Roman Matuszewski	
<i>Formal mathematical texts. Towards their rendering into natural language</i>	59
Anna Zalewska	
<i>Problems with ω-rules in mechanization of reasoning. A comparison of two systems</i>	73
Dariusz Surowik	
<i>Tense logics and the thesis of determinism</i>	87
Andrzej Malec	
<i>Legal reasoning and logic</i>	97
Halina Świączkowska	
<i>Do we think algorithmically?</i>	103
