

# Table of Contents

Introduction .....	1
What You Should Know .....	1
What You Should Have .....	1
Conventions in This Book .....	2
Formula listings .....	2
Key names .....	2
The Ribbon .....	2
Functions, procedures, and named ranges .....	3
Mouse conventions .....	3
What the icons mean .....	3
How This Book Is Organized .....	4
How to Use This Book .....	4
About the Power Utility Pak Offer .....	4

## Part I: Workbooks and Files

Tip 1: Changing the Look of Excel .....	7
Cosmetic changes .....	7
Hiding the Ribbon .....	8
Using options on the View tab .....	8
Hiding other elements .....	9
Hiding the status bar .....	9
Tip 2: Customizing the Quick Access Toolbar .....	10
About the Quick Access toolbar .....	10
Adding new commands to the Quick Access toolbar .....	10
Performing other Quick Access toolbar actions .....	13
Tip 3: Customizing the Ribbon .....	14
How to customize the Ribbon .....	14
Tip 4: Understanding Protected View .....	17
What causes Protected View? .....	17
Printing and copying .....	18
Forcing a file to open in Normal view .....	18
Tip 5: Understanding AutoRecover .....	20
Recovering versions of the current workbook .....	20
Recovering unsaved work .....	20
Tip 6: Using a Workbook in a Browser .....	22

<b>Tip 7: Saving to a Read-Only Format</b> .....	<b>24</b>
Send a printed copy .....	24
Send an electronic copy in the form of a PDF file .....	24
Send an MHTML file .....	25
<b>Tip 8: Generating a List of Filenames</b> .....	<b>27</b>
<b>Tip 9: Generating a List of Sheet Names</b> .....	<b>29</b>
<b>Tip 10: Using Document Themes</b> .....	<b>32</b>
Applying a theme .....	34
Customizing a theme .....	35
<b>Tip 11: Understanding Excel Compatibility Issues</b> .....	<b>37</b>
The Excel 2013 file formats .....	37
The Office Compatibility Pack .....	37
Checking compatibility .....	38
<b>Tip 12: Where to Change Printer Settings</b> .....	<b>39</b>

## Part II: Formatting

<b>Tip 13: Working with Merged Cells</b> .....	<b>43</b>
Other merge actions .....	44
Potential problems with merged cells .....	44
Locating all merged cells .....	45
Unmerging all merged cells .....	46
Alternatives to merged cells .....	47
<b>Tip 14: Indenting Cell Contents</b> .....	<b>48</b>
<b>Tip 15: Using Named Styles</b> .....	<b>50</b>
Using the Style gallery .....	50
Modifying an existing style .....	51
Creating new styles .....	52
Merging styles from other workbooks .....	53
<b>Tip 16: Creating Custom Number Formats</b> .....	<b>54</b>
Parts of a number format string .....	55
Custom number format codes .....	55
<b>Tip 17: Using Custom Number Formats to Scale Values</b> .....	<b>58</b>
<b>Tip 18: Creating a Bulleted List</b> .....	<b>60</b>
Using a bullet character .....	60
Using SmartArt .....	61
<b>Tip 19: Shading Alternate Rows Using Conditional Formatting</b> .....	<b>62</b>
Displaying alternate row shading .....	62
Creating checkerboard shading .....	63
Shading groups of rows .....	64

Tip 20: Formatting Individual Characters in a Cell .....	65
Tip 21: Using the Format Painter .....	66
Painting basics .....	66
Format Painter variations .....	67
Tip 22: Inserting a Watermark .....	68
Tip 23: Showing Text and a Value in a Cell .....	70
Using concatenation .....	70
Using the TEXT function .....	71
Using a custom number format .....	71
Tip 24: Avoiding Font Substitution for Small Point Sizes .....	72
Tip 25: Updating Old Fonts .....	75

## Part III: Formulas

Tip 26: Resizing the Formula Bar .....	81
Tip 27: Monitoring Formula Cells from Any Location .....	83
About the Watch Window .....	83
Customizing the Watch Window .....	84
Navigating with the Watch Window .....	84
Tip 28: Learning Some AutoSum Tricks .....	85
Tip 29: Knowing When to Use Absolute and Mixed References .....	87
Using absolute references .....	87
Using mixed references .....	88
Tip 30: Avoiding Error Displays in Formulas .....	90
Using the IFERROR function .....	90
Using the ISERROR function .....	91
Tip 31: Creating Worksheet-Level Names .....	92
Tip 32: Using Named Constants .....	94
Tip 33: Sending Personalized E-Mail from Excel .....	96
About the HYPERLINK function .....	96
A practical example using HYPERLINK .....	97
Tip 34: Looking Up an Exact Value .....	99
Tip 35: Performing a Two-Way Lookup .....	101
Using a formula .....	101
Using implicit intersection .....	102
Tip 36: Performing a Two-Column Lookup .....	103

<b>Tip 37: Calculating Holidays</b> .....	<b>105</b>
New Year's Day .....	105
Martin Luther King Jr. Day .....	105
Presidents' Day .....	106
Easter .....	106
Memorial Day .....	106
Independence Day .....	106
Labor Day .....	107
Columbus Day .....	107
Veterans Day .....	107
Thanksgiving Day .....	107
Christmas Day .....	107
<b>Tip 38: Calculating a Person's Age</b> .....	<b>108</b>
Method 1 .....	108
Method 2 .....	108
Method 3 .....	108
<b>Tip 39: Working with Pre-1900 Dates</b> .....	<b>110</b>
Use three columns .....	110
Use custom functions .....	111
Use a different product .....	113
<b>Tip 40: Displaying a Live Calendar in a Range</b> .....	<b>114</b>
<b>Tip 41: Returning the Last Nonblank Cell in a Column or Row</b> .....	<b>116</b>
Cell counting method .....	116
Array formula method .....	117
Standard formula method .....	117
<b>Tip 42: Various Methods of Rounding Numbers</b> .....	<b>118</b>
Rounding to the nearest multiple .....	118
Rounding currency values .....	119
Using the INT and TRUNC functions .....	119
Rounding to n significant digits .....	120
<b>Tip 43: Converting Between Measurement Systems</b> .....	<b>121</b>
<b>Tip 44: Counting Nonduplicated Entries in a Range</b> .....	<b>123</b>
<b>Tip 45: Using the AGGREGATE Function</b> .....	<b>125</b>
<b>Tip 46: Making an Exact Copy of a Range of Formulas</b> .....	<b>128</b>
<b>Tip 47: Using the Background Error-Checking Features</b> .....	<b>130</b>
<b>Tip 48: Using the Inquire Add-In</b> .....	<b>132</b>
Workbook analysis .....	132
Diagram tools .....	133
Compare files .....	133
Other options .....	134

<b>Tip 49: Hiding and Locking Your Formulas</b> .....	135
Hiding and locking formula cells .....	135
Unlocking nonformula cells .....	136
Protecting the worksheet .....	136
<b>Tip 50: Using the INDIRECT Function</b> .....	138
Specifying rows indirectly .....	138
Specifying worksheet names indirectly .....	139
Making a cell reference unchangeable .....	140
<b>Tip 51: Formula Editing in Dialog Boxes</b> .....	141
<b>Tip 52: Converting a Vertical Range to a Table</b> .....	142

## Part IV: Working with Data

<b>Tip 53: Selecting Cells Efficiently</b> .....	147
Selecting a range by using the Shift and arrow keys .....	147
Selecting the current region .....	148
Selecting a range by Shift+clicking .....	148
Selecting noncontiguous ranges .....	148
Selecting entire rows .....	149
Selecting entire columns .....	149
Selecting multisheet ranges .....	149
<b>Tip 54: Automatically Filling a Range with a Series</b> .....	151
<b>Tip 55: Fixing Trailing Minus Signs</b> .....	154
<b>Tip 56: Restricting Cursor Movement to Input Cells</b> .....	155
<b>Tip 57: Transforming Data with and Without Using Formulas</b> .....	157
Transforming data without formulas .....	157
Transforming data by using temporary formulas .....	158
<b>Tip 58: Creating a Drop-Down List in a Cell</b> .....	160
<b>Tip 59: Comparing Two Ranges by Using Conditional Formatting</b> .....	162
<b>Tip 60: Finding Duplicates by Using Conditional Formatting</b> .....	165
<b>Tip 61: Working with Credit Card Numbers</b> .....	168
Entering credit card numbers manually .....	168
Importing credit card numbers .....	169
<b>Tip 62: Identifying Excess Spaces</b> .....	170
<b>Tip 63: Transposing a Range</b> .....	173
Using Paste Special .....	173
Using the TRANSPOSE function .....	174

<b>Tip 64: Using Flash Fill to Extract Data</b> .....	176
Changing the case of text .....	176
Extracting last names .....	177
Extracting first names .....	177
Extracting middle names .....	178
Extracting domain names from URLs .....	178
Potential problems .....	178
<b>Tip 65: Using Flash Fill to Combine Data</b> .....	179
<b>Tip 66: Inserting Stock Information</b> .....	181
Hiding irrelevant rows and columns .....	182
Behind the scenes .....	182
<b>Tip 67: Getting Data from a Web Page</b> .....	184
Pasting static information .....	184
Pasting refreshable information .....	185
Opening the web page directly .....	187
<b>Tip 68: Importing a Text File into a Worksheet Range</b> .....	188
<b>Tip 69: Using the Quick Analysis Feature</b> .....	190
<b>Tip 70: Filling the Gaps in a Report</b> .....	192
<b>Tip 71: Performing Inexact Searches</b> .....	194
<b>Tip 72: Proofing Your Data with Audio</b> .....	196
Adding speech commands to the Ribbon .....	196
Using the speech commands .....	196
<b>Tip 73: Getting Data from a PDF File</b> .....	198
Using copy and paste .....	198
Using Word 2013 as an intermediary .....	200

## Part V: Tables and Pivot Tables

<b>Tip 74: Understanding Tables</b> .....	205
Understanding what a table is .....	205
Range versus table .....	206
Limitations of using a table .....	207
<b>Tip 75: Using Formulas with a Table</b> .....	208
Working with the Total row .....	208
Using formulas within a table .....	209
Referencing data in a table .....	211
<b>Tip 76: Numbering Table Rows Automatically</b> .....	212
<b>Tip 77: Identifying Data Appropriate for a Pivot Table</b> .....	214

<b>Tip 78: Using a Pivot Table Instead of Formulas</b> .....	<b>218</b>
Inserting subtotals .....	218
Using formulas .....	220
Using Excel's PivotTable feature.....	220
<b>Tip 79: Controlling References to Cells Within a Pivot Table</b> .....	<b>222</b>
<b>Tip 80: Creating a Quick Frequency Tabulation</b> .....	<b>224</b>
<b>Tip 81: Grouping Items by Date in a Pivot Table</b> .....	<b>227</b>
<b>Tip 82: Creating Pivot Tables with Multiple Groupings</b> .....	<b>230</b>
<b>Tip 83: Using Pivot Table Slicers and Timelines</b> .....	<b>232</b>
Using slicers.....	232
Using a timeline .....	234

## Part VI: Charts and Graphics

<b>Tip 84: Understanding Recommended Charts</b> .....	<b>239</b>
<b>Tip 85: Customizing Charts</b> .....	<b>241</b>
Adding or removing chart elements.....	241
Modifying a chart style or colors .....	241
Filtering chart data .....	242
<b>Tip 86: Making Charts the Same Size</b> .....	<b>243</b>
<b>Tip 87: Creating a Chart Template</b> .....	<b>245</b>
Creating a template .....	245
Using a template .....	246
<b>Tip 88: Creating a Combination Chart</b> .....	<b>247</b>
Inserting a preconfigured combination chart.....	247
Customizing a combination chart.....	248
<b>Tip 89: Handling Missing Data in a Chart</b> .....	<b>250</b>
<b>Tip 90: Using High-Low Lines in a Chart</b> .....	<b>252</b>
<b>Tip 91: Using Multi-Level Category Labels</b> .....	<b>253</b>
<b>Tip 92: Linking Chart Text to Cells</b> .....	<b>255</b>
<b>Tip 93: Freezing a Chart</b> .....	<b>257</b>
Converting a chart into a picture.....	257
Converting range references into arrays.....	258
<b>Tip 94: Creating a Chart Directly in a Range</b> .....	<b>260</b>
Using conditional formatting data bars.....	260
Using formulas to display repeating characters.....	261

<b>Tip 95: Creating Minimalistic Charts</b> .....	264
Simple column charts .....	264
Simple pie charts .....	264
Simple line charts .....	265
A gauge chart .....	266
<b>Tip 96: Applying Chart Data Labels from a Range</b> .....	268
<b>Tip 97: Grouping Charts and Other Objects</b> .....	270
Grouping charts .....	270
Grouping other objects .....	271
<b>Tip 98: Taking Pictures of Ranges</b> .....	273
Creating a static image of a range .....	273
Creating a live image of a range .....	274
Saving a range as a graphic image .....	275
<b>Tip 99: Changing the Look of Cell Comments</b> .....	276
Setting up your Quick Access toolbar .....	276
Formatting a comment .....	276
Changing the shape of a comment .....	277
Adding an image to a cell comment .....	278
<b>Tip 100: Enhancing Images</b> .....	279
<b>Tip 101: Saving Shapes, Charts, and Ranges as Images</b> .....	281
<b>Index</b> .....	283
