

	str.
Notatka informacyjna	5
Lista uczestników	7
A.V.Chadwick, A.A.Al-Mudaris, C.Bridges - Ionic transport in polyether electrolytes	11
C.Davies M.Fahy, M.R.Willie, - Phthalocyanine films for device applications	35
R.Dąbrowski, Liquid crystalline isothiocyanates. A new important class of liquid crystals for practical applications	51
B.Jachys, G.Wiśniewski, A.Zaremba - Polymerowe wzmacniacze elektrońdów	87
J.J.Langer - IR spectra of aniline black (polyaniline).....	99
M.Markevich, M.Pest, A.Krynkov, A.Vannikov - High-sensitive electrophotographic films containing phthalocyanine	105
J.Olszańska, R.Dobroszewski, M.Sudoł - Testing of new stabilizer to the insulating polyethylene	111
W.W.Prażdo - Oddziaływania międzymolekularne i właściwości elektryczne molekuł	118
E.Schlosser, A.Schönhaals - Some new aspects of the interpreta- tion of dielectric relaxation in polymers	131
R.S.Słota, W.Wecławek - Molecular materials for electronics: neodymium diphthalocyanine - structure and properties	147
M.Strzelecka - Heteroaromatic compounds with mesomorphic and/or conducting properties	159
A.Szczurek, K.Lorenz - A semiconducting layer as a gas sensor: Application of a copper phthalocyanine for the detection of high concentrations of NO ₂ in air	161
