

CONTENTS

Preface	5
<i>Alexandra-Maria ALUȚEI, Beniamin CHETRAN, Dan MÂNDRU</i>	
Development of an interface for refreshable Braille devices	7
<i>Mounir AMOKRANE, Eric DUHAYON</i>	
Characterization of ferromagnetic silicones for flexible actuation concept – illustration with integrated coils in membranes	13
<i>Katarzyna BIAŁAS</i>	
Kinematic excitations in active reduction of vibrations	27
<i>Cem BOĞA, Erdoğan ŞİMŞEK, Hüseyin BULGURCU</i>	
Torsional vibration analysis of multi shaft-disc systems	37
<i>Hüseyin BULGURCU</i>	
A case study: designing of multi process control trainer for mechatronic education	51
<i>Ahmet ÇOŞGUN, Cemal OKUYAN, Nafel DOĞDU</i>	
Biocompatibility investigation of steel 420 in plasma (Human body oil)	63
<i>P. GU, R. GUNDERSEN, A.O. KALVIK, R. SALVESEN, H.R. KARIMI, M. OTTESTAD</i>	
Data gathering for pitch stabilization of a high speed catamaran	69
<i>Riza GURBUZ, Mehmet Ali DONERTAS, Hayati MAMUR</i>	
Experimental torque-speed analysis of selected AC servo motors for desk-top NC milling machine	81
<i>Tatjana IVANOVA, Janis RUDZITIS</i>	
Mass measurement interlaboratory comparison in Latvia	89
<i>Zbigniew KNEBA, Jacek KROPIWNICKI</i>	
Oxygen sensor delay time in exhaust system	99
<i>Artur KOPCZYŃSKI, Eugeniusz RUSIŃSKI, Jacek KARLIŃSKI</i>	
Axial compression of spot welded longitudinal beams	109
<i>Jacek KROPIWNICKI, Zbigniew KNEBA</i>	
Phenomenological correction of height above ground level of vehicle derived from GPS system	117
<i>Vigantas KUMŠLYTIS, Algirdas Vaclovas VALIULIS, Raimondas SKINDARAS</i>	
Effect of post-weld heat treatment on the structure of 5%Cr-0.5%Mo steel welded joints	127
<i>Ion LUNGU, Dan MANDRU, Simona NOVEANU</i>	
Measurement of the shape memory alloy wires parameters	137
<i>Ion LUNGU, Dan MANDRU, Simona NOVEANU</i>	
Circuit board for a linear actuator with SMA wires	145
<i>Zdeněk MAJER, Eva NOVOTNÁ</i>	
Numerical estimation of the tensile properties of the composite with rigid particles	151
<i>Dan MÂNDRU, Ion LUNGU, Simona NOVEANU, Olimpiu TĂȚAR</i>	
Product dissection as a method for learning mechatronics	159

<i>Vadim MOKSHIN, Vladas VEKTERIS</i>	
Effectiveness of liquid crystal as cutting fluid additive	169
<i>Gatis MUIZNIEKS, Eriks GERINS, Janis OZOLINS, Vineta MUIZNIECE</i>	
Analysis of providing rotor surface resistance to wear	179
<i>Aleksey MURZINTSEV</i>	
Modelling of an electromagnetic drive gear of an automobile braking system with indemnification of deterioration of brake pads	187
<i>Simona NOVEANU, Dan MANDRU, Ion LUNGU, Vencel CSIBI, Dan NOVEANU</i>	
Experimental research of a mini-system with piezoelectric actuation	191
<i>Krzysztof PUCHER, Dariusz POŁOK</i>	
Application of single-board with the embedded DOS operating system as central units of data acquisition system used for mechatronic measurements	199
<i>Larisa RYBAK, Viktor ERZHUKOV, Elena GAPONENKO</i>	
Design of kinematic and dynamic model 6-DOF parallel robot	209
<i>Tadeusz SMOLNICKI, Paweł MAŚLAK</i>	
Experimental identification of loads in multi-caterpillar mechanism of the ride of dumping conveyor	219
<i>Olimpiu TĂȚAR, Claudiu CIREBEA, Adrian ALUȚEI, Dan MÂNDRU</i>	
Driving modules with adaptable structure for in pipe inspection modular robotic systems	229
<i>Oleg TOKMACHOV</i>	
Economic aspects of laser processing in machinery and apparatus building	243
<i>Rymantas Tadas TOŁOCKA</i>	
Mechanical engineering and mechatronics: development of study programmes	249
<i>Andrzej WRÓBEL</i>	
Influence of piezoelectric plates number in stack on characteristics of mechatronic system	255
Index of authors	263
